Eviden and Atos awarded 2023 AWS Partner Award

Eviden and Atos recognized as GSI Partner of the Year for North America

Las Vegas, USA and Paris, France – November 27, 2023 – Atos Group, including Eviden, leader in digital, cloud, big data and security, is excited to announce that it is a recipient of the 2023 GSI Partner of the Year Award for North America. Announced during the Partner Awards Gala at AWS re:Invent 2023, this award recognizes that Eviden and Atos play a key role helping customers drive innovation and build solutions on Amazon Web Services (AWS).

This award recognizes a wide range of AWS Partners, whose business models have embraced specialization, innovation, and cooperation over the past year, and whose business models continue to evolve and thrive on AWS as they work with customers.

Atos is building on the success of the CloudCatalyst partnership with AWS announced at re:Invent 2022. CloudCatalyst intends to transform the IT outsourcing industry by breaking down the barriers to cloud adoption with a simple, stable and effective approach to migrating critical infrastructure from on-premise to the AWS Cloud, driving efficiency and cutting costs for customers.

Eviden, an AWS Premier partner in data-driven, trusted and sustainable digital transformation works with AWS to bring together market-leading technology, a deep understanding of legacy infrastructure, and the proven transformation expertise to empower the cloud native enterprise.

For the second year in a row, AWS Partner Awards included a self-nomination process across several award categories, which are awarded at both the geographic and global level. All AWS Partners were invited to participate and submit a nomination. Award submissions were reviewed by a third-party, Canalys, and selected with special emphasis placed on customer success use cases presented in the nomination form.

In addition, there were a number of data-driven award categories, which were comprised of a unique set of metrics that helped measure AWS Partners' performance within the past year. Canalys audited the datasets used to ensure that all measurements and calculations were objective and correct in nature.

The AWS Partner Network (APN) is a global program focused on helping companies build successful AWS-based businesses or solutions by providing business, technical, marketing, and go-to-market support. The APN includes independent software vendors (ISVs) and systems integrators (SIs) around the world, with AWS Partner participation growing significantly during the past 12 months.

A panel of AWS experts selected the winners based on strict criteria with third-party audit conducted by Canalys. Atos is excited to announce it has received GSI Partner of the Year NAMER recognizing our significant contributions related to revenue, launched opportunities, net new certified individuals and AWS designations earned.

About Atos

Atos is a global leader in digital transformation with 105,000 employees and annual revenue of c. € 11 billion.
