

EVIDEN

BNflex

Discover the future of
infrastructure, tailor-made for
your business needs

A European-made solution for AI & hybrid environments

Are you looking for a cutting-edge infrastructure that not only meets but exceeds your business needs? Introducing our tailor-made infrastructure solution, proudly manufactured in Europe and designed specifically for AI and hybrid environments

BNflex

Powered by **BullSequana SH** servers
and **NetApp** storage

A unique platform where you can confidently deploy your **critical and AI applications**

Can cut energy by
30%
and save up to 70% on software

Standardized to tailored architecture, tools, processes for an efficient supply and a turnkey solution

Scalable compute and storage resources including SAN and LAN networks

We understand the importance of a reliable and easy-to-integrate infrastructure, and that's why our solution checks all the boxes:

Simplicity

Seamless integration and user-friendly interfaces ensure quick adoption and minimal disruption.

Security

Dual-layer protection featuring advanced onboarded product features combined with rigorous factory hardening

Flexibility

Tailor the solution to fit your specific needs, whether for AI, hybrid workloads, or both

Efficiency

Optimized to deliver maximum performance with minimal resources.

- **Optimize workloads efficiently:** Designed to maximize performance while minimizing resource consumption
- **Deliver fast value:** Benefit from quick implementation and immediate results, driving your business forward faster in any industry.
