

Eviden Vision AI solution is named in Gartner® Emerging Tech: Vision AI Analytics Functionality Matrix, 2026

Paris, France – September 1, 2026 – [Eviden](#), the [Atos Group](#) product brand leading in cybersecurity products, mission-critical systems and vision AI, today announces that its Ipsotek Vision AI solution, has been named in *Gartner® Emerging Tech: Vision AI Analytics Functionality Matrix, 2026*.

According to Gartner®, "Fast-evolving technologies and a fiercely competitive market are challenging video/image analytics vendors to deliver advanced turnkey solutions that are scalable and reliable. This functionality matrix enables product leaders to identify market gaps and opportunities and differentiate their offerings in their most profitable areas."

Dr. Boghos Boghossian, Vision AI's CEO & CTO at [Ipsotek](#), an Eviden business, said "We are proud to be named in *Gartner® Emerging Tech: Vision AI Analytics Functionality Matrix, 2026*, reinforcing our focus on helping enterprises deploy Vision AI that drives measurable outcomes in complex, real-world environments."

Eviden's Vision AI offering, Ipsotek VISuite, is designed to help organizations extract operational intelligence from video at scale, enabling improved safety, efficiency and situational awareness across a range of industries and environments.

Today, Ipsotek VISuite technology supports organizations across 17 key industries in 44 countries and growing, processing more than 700,000 hours of video every day and helping safeguard over 2 million people daily, demonstrating the scale and real-world impact of its mission-critical computer vision solutions.
